**Author contributions:** TAD developed the R package, with taxonomic functions developed by CC. All authors contributed to manuscript writing.

**Acknowledgements:** This work was supported by funding to the Viral Emergence Research Initiative (VERENA) consortium including NSF BII 2021909. For more information on the Verena Consortium, see <https://viralemergence.org>. Earlier development of these data was supported by the Macroecology of Infectious Disease Research Coordination Network (NSF/NIH/USDA DEB 131223).

**Conflict of interest:** The authors have no conflicts of interest to declare.

**Keywords:** insect pathogens, crop pest, experimental infection, nematode, virus, protozoa, bacteria
