**Author contributions**: TAD developed the R package, with taxonomic functions developed by CC. All authors contributed to manuscript writing.

Acknowledgements: This work was supported by funding to the Viral Emergence Research Initiative (VERENA) consortium including NSF BII 2021909. For more information on the Verena Consortium, see https://viralemergence.org. Earlier development of these data was supported by the Macroecology of Infectious Disease Research Coordination Network (NSF/NIH/USDA DEB 131223).

Conflict of interest: The authors have no conflicts of interest to declare.

**Keywords**: insect pathogens, crop pest, experimental infection, nematode, virus, protozoa, bacteria
